Let's talk about Choice...

CHOICE is a European initiative – sequel to **Hombat.eu** - which aims at promoting more inclusive school environments and combating intolerance on the grounds of gender identity, gender expression, sexual orientation and/or sex characteristic in Greece, Bulgaria, Lithuania and Romania.

CHOICE is also based on the online platform **LiveWithoutBullying (livewithoutbullying.com)** that offers support from trained experts and peers to children and teenagers who are victims of bullying, as well as to parents and educators.

Choice aims at:

Enhancing the capacities of school professionals on supporting diversity in the school environment

Preventing and tackling homophobic and transphobic discrimination and bullying in school

Increasing access to support services of victims and bystanders of intolerance based on gender issues or sexual orientation occurring in school

Increasing the reporting of incidents of violence based on gender identity, gender expression and sexual orientation in the school environment

Raising awareness about discrimination and homophobic or transphobic bullying in the school environment

How Choice will succeed?

By **developing National reports** on what **LGBTQI & CIS** Straight students and school professionals need and providing guidelines for school diversity policies

By **designing Capacity Building Programme** for school professionals on how to implement diversity policies in school

By **setting up an online system** for the recording and reporting of incidents of violence and/or intolerance on the grounds of SOGI in the school environment

By **providing free online supporting services** to victims and bystanders of violence and intolerance in school, based on KMOP's online platform **livewithoutbullying.com** and **mobile app**

Follow your CHOICE... How?
